

CLAMPING SOLUTIONS

QUICK ACTING CLAMPING DEVICES

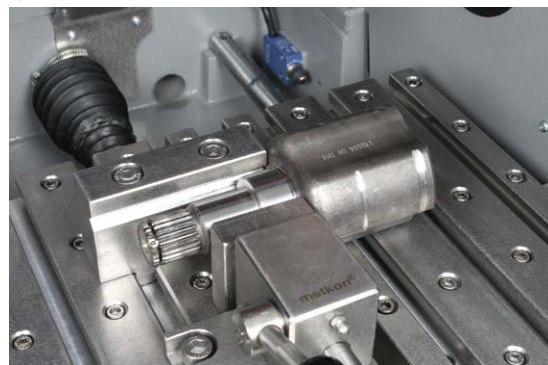

- Suitable for various applications
- Made of stainless steel
- Easy to exchange
- Cam-lock mechanism for fast & safe clamping
- Optional block sets for sensitive & round specimens

QUICK ACTING CLAMPING VISE ASSEMBLY, RIGHT

GR 0029 for METACUT 302 & SERVOCUT 402
GR 0012 for METACUT 302
GR 0121 for SERVOCUT 502
GR 0172 for SERVOCUT 302

QUICK ACTING CLAMPING VISE ASSEMBLY, LEFT

GR 0030 for METACUT & SERVOCUT 402
GR 0013 for METACUT 302
GR 0122 for SERVOCUT 502
GR 0170 for SERVOCUT 302
GR 0548 for MICRACUT 202

COMPACT VISE ASS. SPRING LOADED

GR 0154 for METACUT 302 & SERVOCUT 402
GR 0151 for METACUT 302 & SERVOCUT 302

VERTICAL CLAMPING DEVICES

- Most widely used clamping tools for irregular, large and flat samples
- Very easy and quick clamping with various optional V-shoes
- Can be used with our height blocks to increase the clamping height
- Supplied with hand tool.

MBU 1011 VERTICAL CLAMPING DEVICE

15 02 for METACUT 302 & SRC 402/502/602
15 01 for METACUT 302 & SERVOCUT 302
15 05 for MICRACUT 202 & GEOCUT 302

MK 10 21 HEIGHT BLOCK

15 03 for MTC 302/SRC 302
15 04 for MTC 302/SRC 402/502/602

Fastener Vise for Longitudinal Cutting

GR 0310 for MTC 302/SRC 302/402
GR 0312 for MTC 302/SRC 402

Adjustable V-support blocks

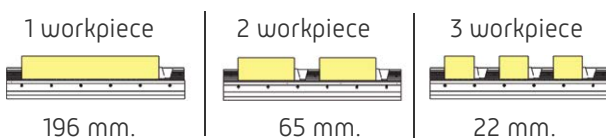

- Function securely and precisely, with stepless adjustment for clamping of irregularly shaped workpieces
- Accurate and safe supporting and setting of any workpiece in various levels and heights.
- Safe & reliable clamp supports for heights from 57 to 155 mm.
- Direct insertion into the T-slot

Serial Slamping Device

- Suitable for clamping multiple samples from 1 to 3
- Single motion tightening

Mechanical Clamping Device

GR 0610 for SRC 602

Chain Spanner Set

- Provides strong and even clamping of large, irregularly shaped specimens.
- Steel chain anchor block for retaining chain
- Clamp or un-clamp with a simple turn of the key.

Angular Cutting Device

- Used for angular cutting specimens.
- Two-dimensional angle adjustment is done using vernier scale and fine adjustment screw.
- Horizontally rotatable up to 360°. Vertically adjustable up to 2 × 60°

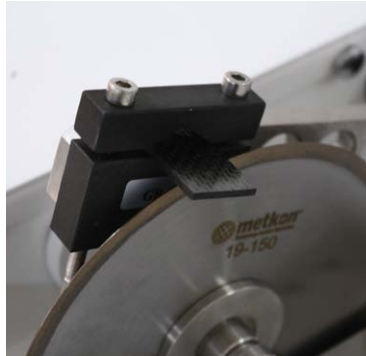

SPECIAL CLAMPING DEVICES FOR MICRACUT

Flange Set Ø 75/100 mm

GR 0410
GR 0411

Universal Specimen Vise

GR 0400

Specimen Vise For Long Specimens

GR 0401

Specimen Vise For Around
& Mounted Specimens

GR 0402
GR 0434

Specimen Vise For Irregularly
Shaped Specimen

GR 0403

Specimen Vise For
Adhering Specimen

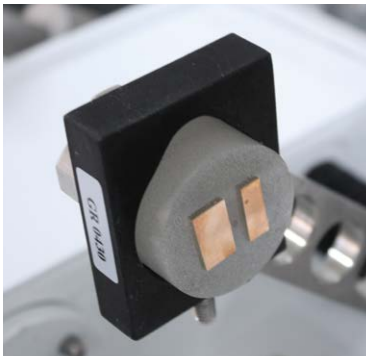

GR 0404

Specimen Vise for
Biomedical Samples

GR 0405

Specimen Vise (Teardrop Shape)

GR 0430
GR 0431

Fastener Vise for Longitudinal
Sectioning of Screws

GR 0453
